

Watson-Glaser™ Critical Thinking Appraisal

Singapore General Population Norm Group

N = 268

This group consists of a broad sample of the general population covering over 70 different occupations from a range of organisations within Singapore.

42% of the sample were male.

Age ranged from 16 – 69, with 52% of the group under age 34.

82% of the sample were ethnically Chinese, 11% Indian, 3% Malay and 4% Others.

86% reported their educational level; 74% hold a degree or higher professional qualification, 5% hold a diploma and 7% hold a GSCE A-Level or equivalent.

The sample was collected throughout 2012 and 2013 as part of a standardisation effort for the Watson-Glaser™ Critical Thinking Appraisal (Unsupervised).
